Task 1: Simple platform with participants

Tools Used: Mongo DB, Mongo Labs, Node.js, Express.js, HTML,CSS, Javascript, Embedded Js

Design Pattern Followed: MVC

Model: Mongo DB which is hosted in Mongo Labs
<https://mlab.com/databases/ironhacks/collections/quotes>
(an account is needed to access it; which can be signed up for free)

View: Available under views folder; Index.ejs and User.ejs (Built with HTML,CSS, JavaScript)

Controller: server.js (Built with Node.js and Express.js)

Steps to Run

- Install Node.js, Express.js and Mongo db drivers and libraries.
- Download the repository from github.
- Naviage to Task1 folder in the terminal.
- Run command npm run dev in terminal.
- Type <http://localhost:3000/> to access the platform in browser.

Miscellaneous

- Snippet of the database is in the below snapshot
- Currently participants a, b and c are signed up already
- Additional users can register via sign up button

Participant A: username: a; password: a
Participant B: username: b; password: b
